

Standard First Aid/CPR/AED Awareness

Course Description

This course teaches participants how to confidently respond to an emergency in the home or workplace and provide lifesaving care until professional help arrives. This course meets the requirements for workplace training where there are six or more workers on any one shift. Training includes practical skill stations, scenarios and written evaluation.

Approved by WSIB and provincial workers' compensation boards.

Duration

3-4 Hours online
7-8 Hours in-class

Course Handout

WMC First Aid/CPR Manual

Certificates

3 years – Standard First Aid/CPR/AED Awareness Wallet Card (optional Wall Certificate)

Note: A one-day recertification is available before expiry of initial certification and is valid for 3 years.

Requirements

Must complete the online theory prior to attending in-class training.

Participants need to complete practical and written evaluation to receive certification.
