

Automated External Defibrillators

Respond with confidence using a Stryker AED

When it comes to being prepared to respond to sudden cardiac arrest, having the right AED can make the difference between life and death.

As a leader in AED training, implementation, and support programs, Workplace Medical Corp. has partnered with Stryker to support homes, workplaces and communities with the best outcome in a sudden cardiac arrest. Through the advanced technology of the Stryker product line, WMC now offers a complete suite of AED solutions ranging in features and price to ensure that AEDs can be accessible.

Whether you need an AED with escalating energy up to 360 joules, CPR feedback, a dual battery system, bilingual toggle, or wireless connectivity, we've got you covered. Our AED solutions can fit your price point and the needs of your environment, to ensure a confident response in your workplace, home or community.

Find a solution that fits the needs of your environment - contact us for a quote today!
